

System Sensor 2009 Product Awards

New Product Showcase – the [CO1224T Carbon Monoxide Detector with RealTest™](#) was one of two winners in the Fire and Life Safety Category in the New Product Showcase (NPS). Held annually at the ISC West trade show in Las Vegas, the Security Industry Association-sponsored NPS recognizes the best security and life safety product innovations.

Maximum Impact Award (Mia) – the [CO1224T Carbon Monoxide Detector with RealTest™](#) was a winner in the Alarm Equipment: Fire/Smoke/Gas Detectors category at the 2009 Electronic Security Expo (ESX). The Maximum Impact Awards recognize products for their impact on the business of integration and monitoring companies.

Buildings magazine Top 100 Products/Services – the [Advanced Multi-Criteria Fire Detector](#) was selected by the editorial staff at Buildings magazine. Thousands of products were reviewed and an elite group of 100 was selected based on aesthetics, ease of use, durability/life-cycle, efficiency or applicability, universal appeal, sustainable/green elements, and more. The product is featured in the June 2009 issue.

Consulting-Specifying Engineer (CSE) 2009 Product of the Year – the [Advanced Multi-Criteria Fire Detector](#) (Gold) and [InnovairFlex™ Duct Smoke Detector](#) (Bronze) were winners in the Fire Detection, Alarm, Notification equipment category. Finalists were selected by a panel of professional engineers and winners were chosen by CSE subscribers. Winners were announced in the July 2009 issue.
