

## Xtralis LoiterTrace for Axis

### Product Overview

The Xtralis LoiterTrace application, provides high performance loiter detection using video analytics specifically designed for indoor/outdoor operation. LoiterTrace is an image analysis tool able to detect humans remaining too long in the scene. The analytic uses advanced algorithms to maximize target detection and tracking. It is able to detect loitering persons even if they remain static for a long time (like when the person is sleeping). With simple "region of interest" configuration, LoiterTrace detection is suited for office lobbies, entrance halls of public buildings, etc.

LoiterTrace is now available for server platforms and edge devices. Supporting up to 32\* channels on ADPRO® devices and up to 8\* channels on HeiTel devices, LoiterTrace complements the powerful recording, transmission, alarm handling and flexible licensing capabilities of these established platforms with high performance video loitering detection. LoiterTrace also supports Honeywell and Axis edge devices such as video cameras and encoders. Running on the device itself, LoiterTrace takes analytics to the video source, providing self-contained, high performance loitering detection on a networked device. Close integration with the device platform ensures compliant event management and alarm reporting for seamless system integration. LoiterTrace on the edge complements the rack-mount and mobile platforms with a simple camera approach to give solutions for every scenario.

### Key Features and Benefits

- Adjustable detection and mask areas to suit application
- Advanced logic to double-knock with other events\*
- Fast installation and commissioning
- Remote servicing
- Supports for IP and Analogue cameras\*
- Independent object and contrast sensitivity settings
- Versatile loiter time adjustments to suit target and application
- Rapid verification/response with clearly highlighted targets
- Audio link can be used to deter offenders\*

\* Hardware dependent

### Suitable Applications

- Lobbies of apartment, office, and retail locations
- Store fronts of apartment, office, and retail locations
- Public transportation hubs
- Parks/recreational areas
- ATM locations

### License Process

1. Obtain an LoiterTrace on Axis License through your normal sales channels. 60-Day licenses are available for evaluation purposes.
2. Download the LoiterTrace on Axis application from [www.xtralis.com/analytics](http://www.xtralis.com/analytics).
3. Load the application onto a supported Axis device.
4. Start the application and go to the LoiterTrace settings Main page.
5. Follow the instructions on that page to activate your application. You will need a license, supplied hardware ID, and internet access for this step.
6. You will now be able to configure the application.

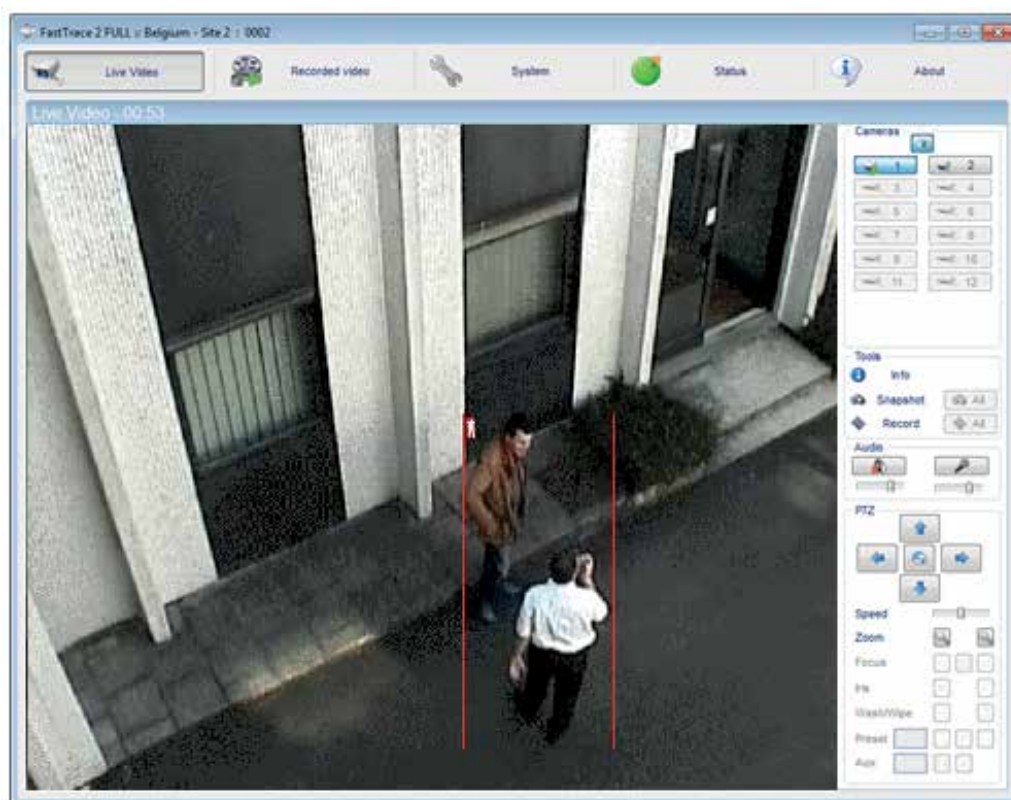

For further information on installing and configuring LoiterTrace on Axis refer to the Quick Start Guide (Doc 33402).

### Specifications

- A video analytic application that detects loitering
- Designed for 24/365 indoor and outdoor applications
- Detects moving targets and targets that come to a stop
- Intuitive parameters for effective detection with minimal false alarms
- A wide range of applications including:
  - Monitoring of public areas such as parks, car parks, lobbies and entrances
  - Reducing undesirable behaviour linked to substance abuse
  - Reducing risk to property such as vandalism, graffiti, arson
  - Reducing risk to people from harassment near building entrances
  - Reducing risk of crime such as identity theft near ATMs
  - Alerting staff to potential vagrants and reducing crime through early intervention

## Xtralis LoiterTrace for Axis License Part Numbers

Part Number	Description
49975900	LoiterTrace Edge License DEMO 60 days for 1 Video Channel
49975901	LoiterTrace Edge License Perpetual for 1 Video Channel
49975902	LoiterTrace Edge License Perpetual for 2 Video Channels
49975903	LoiterTrace Edge License Perpetual for 4 Video Channels
49975904	LoiterTrace Edge License Perpetual for 8 Video Channels
49975905	LoiterTrace Edge License Perpetual for 16 Video Channels
49975906	LoiterTrace Edge License Perpetual for 32 Video Channels
49975907	LoiterTrace Edge License Perpetual for 64 Video Channels
49975908	LoiterTrace Edge License Perpetual for 128 Video Channels

### Delivery Lead Time

7 – 10 working days
