

BIOMETRIC ACCESS CONTROL WITH PRO-WATCH®

Meet today's challenges for building access, safety and security by integrating the most advanced biometric access products with Honeywell's Pro-Watch security management suite – the flexibility, scalability and control you demand for comprehensive security management.

Pro-Watch equips you to protect people, secure assets and ensure regulatory compliance by combining access control, digital video, intrusion and other functions into one powerful system.

And now, integrating the IDEMIA family of biometric access readers allows users to add cutting edge biometric identification to their security portfolio without having to manage separate systems.

Using IDEMIA's award-winning biometric technology, users are able to enroll and manage biometric templates within Pro-Watch providing a truly integrated and seamless user experience. Supported devices include the latest from IDEMIA such as MorphoWave contactless fingerprint scanning and VisionPass facial recognition, for minimizing surface contact, as well as the SIGMA family of fingerprint readers.
