# Honeywell Cloud Services

## Security solution for self monitoring

With  
**Le Sucre™**

Developed in response to home owner needs, **Le Sucre is a wireless security system**, designed to unobtrusively integrate into today's stylish interiors and then placed anywhere in the home.

The end-user will easily know if the system is **armed or disarmed** and change it if needed

**Images can be triggered** by the end-user, stored on the cloud and replayed including images triggered by an alarm event.

The end-user can receive **SMS\*** and **emails notifications** for intrusion, smoke, CO, panic alerts, low battery, mains power failure, auto-diagnosis failure

The **temperature** of the room where the PIRs are installed is transferred to the Cloud; the end-user is able to monitor live temperature remotely

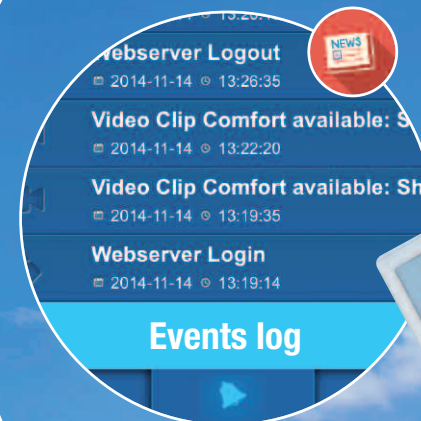

**SMS\* & Email notification**

**SIM Card included**

The **SIM card** and **roaming** services are included in **Honeywell Cloud Services** for two years

The **event log** of the system can be displayed to the end-user

**Events log**

**Image triggering**

Installed by security professionals and with **Honeywell Cloud Services**, **Le Sucre** offers the home owner a self-monitored security system based on the same technology and quality as monitoring station connected installations.

\* Optional Service
