Pro-Watch® Ecosystem

Honeywell's Pro-Watch® suite provides comprehensive and powerful security solutions to meet the needs of the most demanding security management requirements. The Pro-Watch platform is composed of an interconnected ecosystem that enables organisations to optimise their security system to best fit their needs and goals. From logical and physical integration, to management of intrusion, access control and video surveillance, the Pro-Watch ecosystem provides practical applications to manage every aspect of a security installation.

Why Pro-Watch?

The flexibility of Pro-Watch enables you to actively monitor and manage your facilities by leveraging multiple inputs enabling you to see the big picture.

Alarm and Event Management – view alarms and video data across multiple inputs using a single user interface while reducing training costs.

Video Surveillance – integrate IP and analogue components—cameras, DVRs, NVRs—and associate with entry points to view live or recorded video.

Logical Integration – configure and display device connectivity using pre-designed templates to drive consistency and reduce set-up time.

Visitor Management – manage access control for employee/visitor badgeholders with built-in pre-registration, desktop notifications and watch lists.

Mass Notification – automate notification of informational or mission critical messages to individuals, groups or large communities.

Compliance Reporting – comply with industry standards, regulations and privacy laws, such as NERC, Title 21 CFR Part 11, HIPAA, CFATS, TSA, PIV, and TWIC.
