PEACE OF MIND AT EVERY STAGE

Connected Life Safety Services (CLSS)

Honeywell

EFFICIENCY AT EVERY STAGE

Harness the power of hardware and software to transform your fire and life safety system. Honeywell Connected Life Safety Services is the first end-to-end system solution streamlining the way your facility is installed, tested, and serviced.

Connection and Efficiency from Your Mobile Device or Laptop.

Putting facility management into your pocket with the CLSS Mobile App.

CLSS is more than just efficiency.
***It fills a technology gap** in the fire industry, which we can all appreciate.*

CLSS enables the system integrator to know what they need to do ***before they get to your site**.*

MINIMIZE DISRUPTION AND CUT DOWNTIME

Testing and maintenance of your fire system can cause disruption of business operations and impede productivity. CLSS provides a suite of tools to allow your systems to be tested and serviced more efficiently than ever before. Efficient service means less disruption within your facility, with the information needed to mitigate life safety events.

PROVE COMPLIANCE

With Honeywell CLSS, compliance reports are available to you anytime, anywhere with the click of a button. Whether you are using the CLSS Mobile App or you need a report sent from your ESD, you have the assurance that thoroughly completed reports are available within seconds. Gone are the days of tracking paper files. CLSS provides compliance at your fingertips.

REAL TIME VISIBILITY

With remote system visibility, CLSS provides both you and your technicians with system visibility to diagnose a problem before arriving on site, and gives you the peace of mind that your system is being monitored anytime, from anywhere with your CLSS Mobile App.

SYSTEM COMPLIANCE

With Honeywell CLSS, templated or customized compliance reports are available to you anytime, anywhere with the click of a button. Device testing is taken to the next level, going beyond barcodes to truly verify every device is tested.

BETTER PLANNING TOOLS AND REDUCED DOWNTIME

CLSS enables streamlined maintenance, providing technicians with the information needed to locate and fix issues before they result in unforecasted operational costs. Systems are maintained quickly with limited impact on your business operations.

HOLISTIC VIEW AND REAL TIME INFORMATION

CLSS allows you to view all of your facilities to ensure sites are operating effectively. Cross-site connectivity provides insight into scheduled system testing, inspection reports and device inventory.

END-TO-END CYBERSECURITY

Honeywell is committed to proactively monitoring the cybersecurity landscape, ensuring data is safely stored and securely accessible to permitted system users.
