

5230

Remote Annunciator

The 5230 is a remote annunciator that provides both trouble and alarm annunciation, and a convenient means for programming the 5104, 5128/29, 5204, and the 5207.

When the system is normal and receiving AC power, the power LED is on.

Users identify themselves to the control panel by entering a code on the annunciator. When a user presses a button, the annunciator piezo beeps and the LCD prompts the user to enter a code or other relevant information.

INSTALLATION
