

BIOMETRIC ACCESS CONTROL WITH PRO-WATCH®

Meet today's challenges for building access, safety and security by integrating the most advanced biometric access products with Honeywell's Pro-Watch security management suite – the flexibility, scalability and control you demand for comprehensive security management.

Pro-Watch equips you to protect people, secure assets and ensure regulatory compliance by combining access control, digital video, intrusion and other functions into one powerful system.

And now, integrating the IDEMIA family of biometric access readers allows users to add cutting edge biometric identification to their security portfolio without having to manage separate systems.

Using IDEMIA's award-winning biometric technology, users are able to enroll and manage biometric templates within Pro-Watch providing a truly integrated and seamless user experience. Supported devices include the latest from IDEMIA such as MorphoWave contactless fingerprint scanning and VisionPass facial recognition, for minimizing surface contact, as well as the SIGMA family of fingerprint readers.

Frictionless access control with VisionPass and MorphoWave Compact from IDEMIA, integrated with Pro-Watch

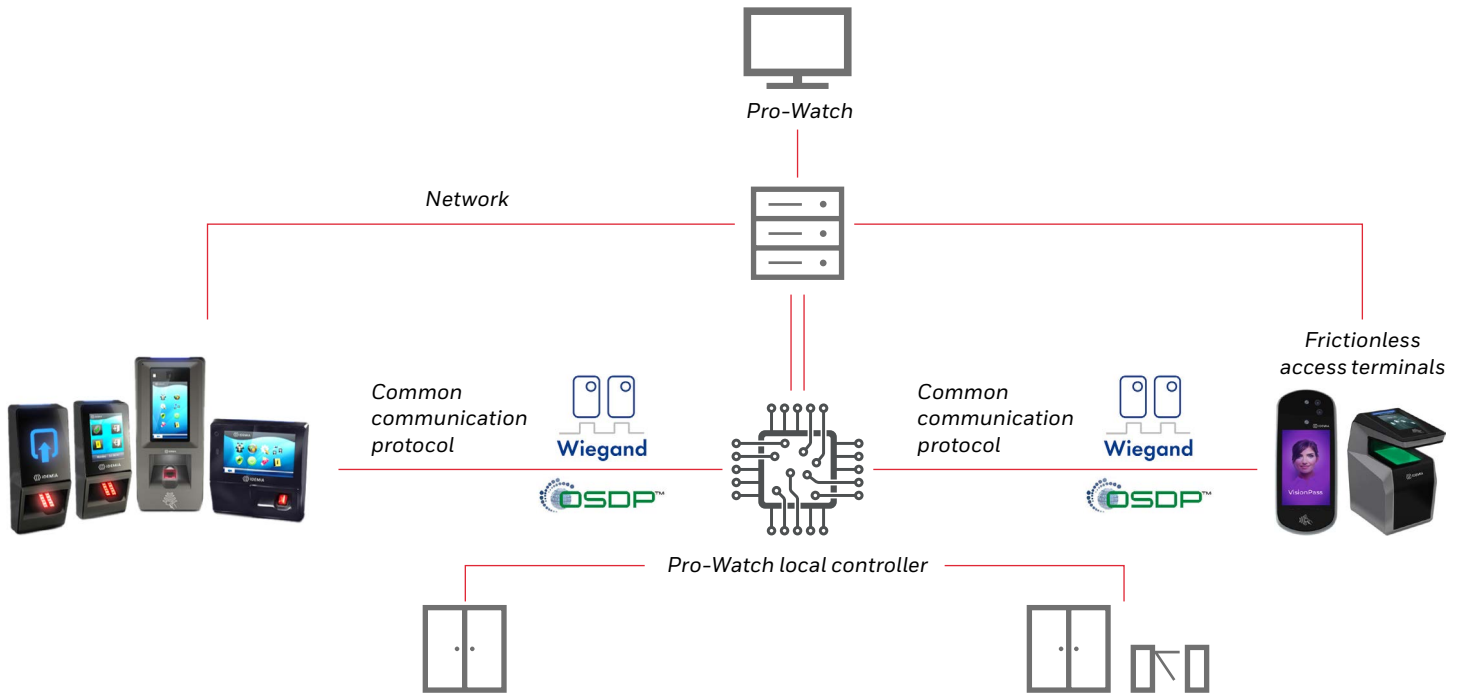

Fingerprint-based access control in the SIGMA series from IDEMIA, integrated with Pro-Watch

FEATURES AND BENEFITS

- Pro-Watch biometric enrollment, no separate databases or software to manage
- Sigma reader with FBI PIV IQS certified optical sensor, featuring false finger detection
- Multi-factor authentication including PIN+BIO and Card+PIN+BIO
- Optional Prox, iClass, or MIFARE/ MIFARE Plus/ DESFire/NFC contactless card reader available
- Upgradeable reader capacities up to 100,000 users (capacities vary by device)
- Optional Wi-Fi communication interface for network connectivity (varies by model)
- For indoor and outdoor installation (IP65 rated)
- Sigma Extreme IK08 rated
- All devices feature advanced anti-fraud technology
- Leading fingerprint technology ranked most accurate by National Institute of Standards and Technology (NIST)
- Frictionless access products reduce surface contact for a healthier building
- Embedded Web Server for reader configuration and transaction log viewing
- RoHS, REACH and WEEE Compliant
- Field-proven quality and reliability

PRO-WATCH SOFTWARE AND LICENSE REQUIREMENTS

Pro-Watch Professional or Pro-Watch Corporate Edition

Pro-Watch Smart Card and Biometric License Add-on

Pro-Watch Reader License (1 per reader)

PRO-WATCH HARDWARE REQUIREMENTS

MSO300 Enrollment Reader (1 per SIGMA enrollment station)

VisionPass and MorphoWave devices can be designated for enrollment; one enrollment device required per system

Earlier versions of Pro-Watch supported IDEMIA offerings; please contact your Honeywell representative for more information on how you can start using biometrics today.
