Honeywell
THE POWER OF CONNECTED

Farenhyt™ Series

L-Series Chimes and Chime / Strobes

The L-Series product line of wall and ceiling mount chimes and chime strobes include a variety of features that increase their application versatility while simplifying the installation. With white and red plastic housings, System Sensor L-Series can meet virtually any application requirement.

Selectable-output chimes and chime/strobes are private mode notification appliances used to alert trained personnel to investigate possible emergency situations and to take appropriate action. Security guard and nurse workstations are ideal locations for chime products.

All devices feature plug-in design with minimal intrusion into the back box, making the installation fast and foolproof while virtually eliminating costly and time-consuming ground faults.

Installers can easily adapt devices to a wide range of application requirements using field-selectable candela settings, automatic selection of 12-or-24 volt operation, and a rotary switch for chime tones and two volume selections.

WALL-MOUNT CHIMES AND WALL/CEILING-MOUNT CHIME STROBES

FEATURES & BENEFITS

- Built with an updated modern aesthetic design
- Features a Plug-in design that allows minimal intrusion into the backbox
- Mounting plate shorting spring feature checks wiring continuity before device installation
- Designed with tamper-resistant construction
- Field-selectable candela settings:
  Wall: 15, 30, 75, 95, 110, 135, 185
  Ceiling: 15, 30, 75, 95, 115, 150, 177
- Uses a rotary switch for tone and volume selections
- Automatic selection of 12- or 24-volt operation at 15 and 30 candela
- Five selectable tones with high and low volume settings
- Electrically compatible with existing SpectrAlert and SpectrAlert Advance devices
- Wall models listed for wall mounting only, ceiling models listed for ceiling mounting only
- Captive mounting screw

L-Series Specifications

ARCHITECT/ENGINEER SPECIFICATIONS

GENERAL

System Sensor L-Series chimes and chime strobes shall mount to a standard 4×4 × 1½-inch back box, 4-inch octagon back box, singlegang 2 × 4 × 17/8-inch back box, or double-gang back box. A universal mounting plate shall be used for mounting products. The notification appliance circuit wiring shall terminate at the universal mounting plate. Also, System Sensor L-Series products, when used with the Sync•Circuit Module accessory, shall be powered from a non-coded notification appliance circuit output and shall operate on a nominal 12 or 24 volts. When used with the Sync•Circuit Module, 12-volt rated notification appliance circuit outputs shall operate between 8.5 and 17.5 volts; 24-volt rated notification appliance circuit outputs shall operate between 16.5 and 33 volts. Indoor L-Series products shall operate between 32 and 120 degrees Fahrenheit from a regulated DC, or full-wave rectified, unfiltered power supply. Chime strobes shall have field-selectable candela settings of 15, 30, 75, 95, 110 , 135, and 185 for wall units and 15, 30, 75, 95, 115, 150, and 177 for ceiling units.

CHIME STROBE COMBINATION

The chime strobe shall be a System Sensor SpectrAlert Advance Model _____ listed to UL 1638 and UL 464. The chime strobe shall comply with the Americans with Disabilities Act requirements for visible signaling appliances, flashing at 1Hz over the strobe's entire operating voltage range. The strobe light shall consist of a xenon flash tube and associated lens/reflector system. The chime shall have two audibility options and an option to switch between temporal three pattern, non-temporal(continuous) pattern, 1 second chime pattern, 1/4 second chime pattern, 5 second whoop chime pattern. These options are set by a multiple position switch and an option to switch between temporal three pattern, non-temporal(continuous) pattern, 1 second chime pattern, 1/4 second chime pattern, 5 second whoop chime pattern. These options are set by a multiple position switch.

SYNCHRONIZATION MODULE

The module shall be a System Sensor Sync•Circuit _____ listed to UL 464 and shall be approved for fire protective service. The module shall synchronize SpectrAlert strobes at 1Hz and all available chime tones. Also, while operating the strobes, the module shall silence the chimes on chime/strobe models over a single pair of wires. The module shall mount to a 4 11/16 × 4 11/16 × 2 1/8-inch back box. The module shall also control two Style Y (class B) circuits or one Style Z (class A) circuit. The module shall synchronize multiple zones. Daisy chaining two or more synchronization modules together will synchronize all the zones they control. The module shall not operate on a coded power supply.

UL MAX. CHIME CURRENT DRAW (mA RMS)

SOUND PATTERN	8-17.5V		16-33V	
	dB	DC	DC	FWR
1 Second Chime	High	5	8	9
1 Second Chime	Low	5	8	9
¼ Second Chime	High	6	10	10
¼ Second Chime	Low	5	9	9

TONE SELECTION

To select the chime tone, use the rotary switch on the back of the product. The current draw and sound measurements for various chime tone settings are listed below.

HORN STROBE TONES AND SOUND OUTPUT DATA

SETTINGS	REPETITION RATE	DB LEVEL
1	1 Second Chime	High
2	1 Second Chime	Low
3	¼ Second Chime	High
4	¼ Second Chime	Low
5	Temporal Chime	High
6	Temporal Chime	Low
7	5 Second Whoop	High
8	5 Second Whoop	Low
9	Coded**	High

**For chime only.

HORN STROBE TONES AND SOUND OUTPUT DATA

PHYSICAL

Chime: 4.7" W x 5.67" H x 1.25" D
Chime/Strobe: 4.7" W x 5.67" H x 1.91" D
Ceiling Chime/Strobe: 4.82" W x 5.78" H x 1.85" D
SBBRL: 6.83" Dia. x 2.47" D
SBBCRL: 6.92" Dia x 2.5" D

ELECTRICAL SPECIFICATIONS

Strobe Flash Rate: 1 flash per second
Nominal Voltage Regulated: 12VDC or regulated 24DC/FWR1
Operating Voltage Range[2]:8 to 17.5V (12V nominal) or 16 to 3V (24V nominal)
Operating Voltage Range with MLD3: 8.5 to 17.5V (12V nominal) or 16.5 to 33V (24V nominal)
Input terminal wire gauge: 12 to 18 AWG

ENVIRONMENTAL

Standard Operating Temperature: 32°F to 120°F (0°C to 49°C)
Humidity Range: 10 to 93% non-condensing

Notes:

1. Full Wave Rectified (FWR) voltage is a non filtered, time varying power source that is used on some power supply and panel outputs.

2. CHS products will operate at 12 V nominal only for 15 and 30 cd.
