SpectrAlert® Advance Horn/Strobes

NOTIFIER® by Honeywell

Ancillary Devices

General

The SpectrAlert Advance series offers the most versatile and easy-to-use strobes and horn strobes in the industry.

Like the entire SpectrAlert Advance product line, wall-mount strobes and horn strobes include a variety of features that increase their application versatility while simplifying installation.

All devices feature plug-in designs with minimal intrusion into the back box, making installations fast and foolproof while virtually eliminating costly and time-consuming ground faults.

To further simplify installation and protect devices from construction damage, SpectrAlert Advance utilizes a universal mounting plate with an onboard shorting spring, so installers can test wiring continuity before the device is installed.

Installers can also easily adapt devices to a suit a wide range of application requirements using field-selectable candela settings and a rotary switch for horn tones with three volume selections.
