

STI Stopper® "G"

Glass Manual Pull Station Cover

Miscellaneous

General

The Safety Technology International, Inc. Stopper® "G" is designed for applications where a "Break Glass" cover is specified or desired, such as in dormitories or other supervised areas. Stopper® "G" consists of a red cover, single-strength glass (which is easily replaced when broken), a glass-breaking metal bar, and anchors, ready for simple installation. As with the Stopper® II, legitimate alarms can still be activated.

Features

- Aesthetically appealing and easily installed.
- Fits virtually all manual stations.
- Glass replacement is easy. (Suggestion: Order extra panes with each Stopper® "G".)
- Fire alarm remains visible and accessible.
