Low voltage halogen lamp dimmer
LED

Product Data Sheet

Assembly arrangement	Basic element
Method of operation	Turn/push button
Type of load	Universal
Mounting method	Other
Type of fastening	Other
Surface protection	Untreated
Colour	Other
Suitable for degree of protection (IP)	IP20
Serial dimmer	No
Substation input	Yes
Halogen free	Yes
Frequency	50-60Hertz
Nominal power	6-60Voltampere
Connection type	Plug clamp

Low voltage halogen lamp dimmer
LED

LED rotary dimmer, leading-edge – leading-edge dimmer for dimmable LED illuminant, filament lamps, high voltage halogen lamps and other ohmic loads with push on/push off/2-way switch Basic brightness adjustable, with soft arrester, with plug-in terminals, 230–240 V~, 50–60 Hz, 25–100 VA, 6– 60 W LED, 6–120 W halogen (fuse T 1.6 H), temperature protection not resettable

Material No.	Article No.	EAN-code
