SPK-LED Series
LED Illuminated Speaker System

US DIGITAL DESIGNS
by Honeywell

General

Phoenix G2 LED Illuminated Speaker system offers soft start, ramped night lighting at the time of dispatch. The Phoenix G2 LED Illuminated Speakers are designed to assist firefighters out of bed, out of the room, and down the hall. The unique design incorporates a room speaker and long lasting, bright, and reliable LED lighting technology. Each speaker is fitted with 18 high-intensity red LEDs which offer exceptional luminosity without causing light blindness due to dark to bright transition.

The Phoenix G2 LED Illuminated Speaker is based on a Bogan S86 and is fit for installation on both hard and drop ceiling surfaces.

Recommended installation locations include dorm rooms, hallways, and common areas. Each Phoenix G2 LED Illuminated Speaker can be powered by the Phoenix G2 ATX Station Controller, Room Remote 2, or Message Remote 2. No external power or amplifiers are required.

- 8" cone speaker for excellent audio quality
- Off-white enamel over steel grill
- Architectural standard speaker
- Easy install for drop ceiling panels

Specifications

- Type: 8 ohm or 70v configuration
- Power: 48 VDC, 20 mA
- 90 dBspl sensitivity
- 1 Year Parts & Labor Warranty
- Service Contract Available
- Dimension: 9.5" Diameter
