

BB-26 Battery Box

Doc. #51858 Rev. A ECN 01-514 09/14/01

Overview

The BB-26 Battery Box is designed to house two 12VDC, 26AH batteries. A dead-front panel is supplied with the backbox. Knockouts are provided to facilitate various installation options. The backbox dimensions are illustrated below for installation.

Parts

Quantity	Description
1	BB-26 Battery Box Cabinet
1	BB-26 Battery Box Dead-Front Panel
2	Self-Threading Screws for Dead-Front

Option

The CHG-75 Charger can also be housed in the battery box. Refer to the CHG-75 Manual Doc. #51315 for installation instructions.
