

Dress Panel Product Installation Document

PN LS10204-000GE-E:A 11/13/2017 17-570

1 Dress Panel Installation

1. Open the backbox door. The door does not need to be removed.
2. Slide the top hinge of the dress panel into the top slot of the backbox.
3. Slide the bottom hinge of the dress panel into the bottom slot of the backbox.
4. Connect ground strap between dress panel ground stud and backbox ground stud as illustrated below.
5. Close the dress panel and secure it to the backbox with two #4 screws and two washers, or two #6 screws, one in the top right corner and one in the lower right corner.
