

ABS-4D Series

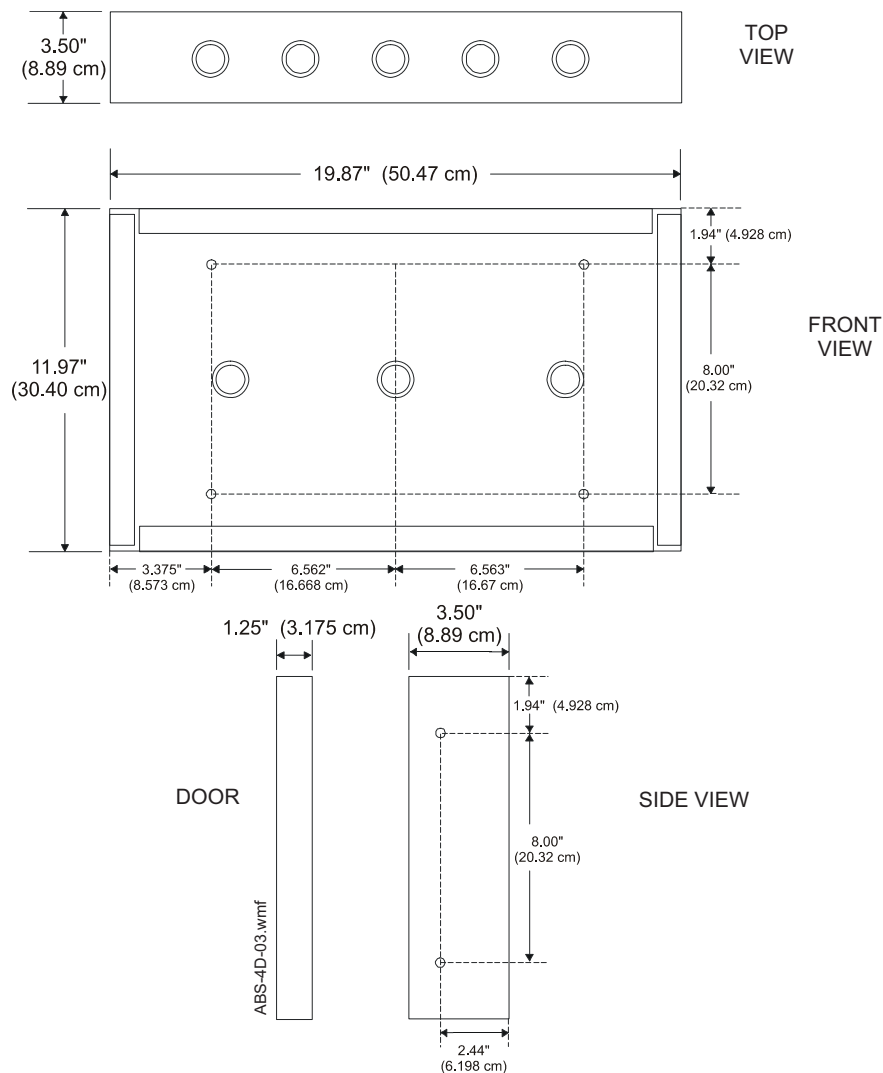

Product Installation Document

PN 15073:C 03/15/2007 06-570

ABS-4D Series cabinets are single-row enclosures for use with Network*, ACS, and SCS series annunciators. The enclosures are suitable for both surface mount and semi-flush mount (requires optional trim ring) applications.

Available in either black (ABS-4D) or red (ABS-4DR), enclosures in the ABS-4D Series include the backbox, locking door with LEXAN® window, and two keys. Conduit access is provided via five knockouts on the top of the enclosure, five on the bottom, and three on the back surface.

Product information and enclosure dimensions are as follows:

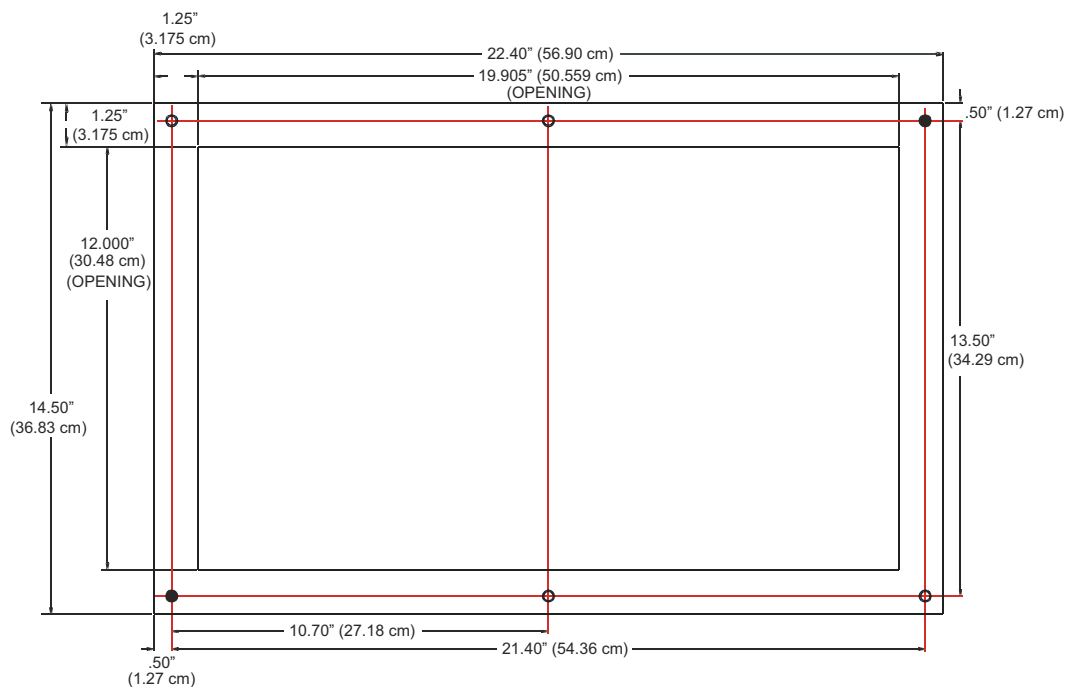

* The ABS-4D Series cabinet can only accommodate the NCA-2 network annunciator using the NCA Retro Kit. The NCA-2 must then be mounted in the center position with a blank plate (BMP-1 or DPSW-1) mounted on each side.

The following hardware is available for use with the ABS-4D Series cabinets:

- **TRABS-4D:** Black trim ring for use with ABS-4D
- **TRABS-4DR:** Red trim ring for use with ABS-4DR

Trim Ring dimensions are as follows:
