# BB-25 Cabinet
# Product Installation Document

PN 50898:B1 12/05/2006 06-836

The BB-25 Cabinet is designed to house the CHS-6 Chassis. The cabinet is hinged at the bottom and is shipped assembled. It is designed to be mounted a minimum of 6 inches (15.24 cm.) below the Fire Alarm Control Panel. Below are the cabinet dimensions for installation.

The BB-25 comes with a false bottom plate. Place this plate in the bottom of the cabinet for battery support.
