Honeywell | Security Eastern Europe   **Edition 2/2015**

Introduction

Content

Dear Customer,

I am pleased to share with you the latest news on Honeywell commercial product portfolio. Firstly, we have a new **GX Remote Control - Galaxy® Mobile App, v. 2.1,** with a new, easy to use interface and which can connect up to 5 Galaxy panels.

Secondly, we want to share with you a new video on our new detector range. It showcases our competitively priced **embedded NVR range** and cameras. And you can have the MAXPRO® NVR software Free of Charge if you use our IP cameras from the equIP® S range.

Thank you for participating in the Honeywell Security Academy and Channel Partner Programme, and please feel free to contact our team at any time.

Thank you for your feedback.

Best regards,

Radim Roček

Case Study:

NEW - GX Remote Control - Galaxy® Mobile App

A simpler way to remotely manage home and business security

- NEW simple to use interface
- One app for all your systems
- Free to download and use

Three easy options:

1. Search for **'GX Remote Control'** on either Google Play (for android) or Apple App store (for iPad and iPhone)

2. Click on the app store icon to download the app now to your smart device

3. Scan the QR code with your smart device to link directly to your app store

NEW - IP Embedded NVRs & IP Cameras

Performance series

We are pleased to introduce the 4, 8 and 16 Channel NVRs , expanding the Performance Series range that includes the 4 Channel Embedded NVR Kits. This product range offers **competitively priced, easy to install, operate and maintain NVRs** along with ball and bullet 1080p IP cameras, suitable for small to medium size security applications.

You can NOW choose the mix of cameras according to the needs of the client, and you can order the cameras independently as well as the NVRs.
