**Introduction**

**Content**

Dear Customer,

I am pleased to bring you our latest e-newsletter.

The new Galaxy GX Remote Control mobile app is the latest development from Honeywell. It is available for both main mobile platforms. We are already preparing an updated version with unique functionalities, and will tell you about it in our next communication.

A new person has joined the Honeywell team. His name is **Ovidiu Homoc**, and he is our technical support specialist focusing on WIN-PAK, Galaxy and sensor products. Visit our website for his contact information.

Thank you for your valuable feedback which will greatly help us to improve our services.

Best regards,

**Radim Roček**  
Sales Leader  
Eastern Europe

**Sensors Video:**

**NEW - GX Remote Control - Galaxy® Mobile App V2.2**

We are pleased to announce the latest release of GX Remote Control, the mobile application that provides access to your Galaxy Flex and Galaxy Dimension security systems remotely anytime, anywhere.

**Three easy options:**

1. Search for '**GX Remote Control**' on either Google Play (for android) or Apple App store (for iPad and iPhone)
2. Click on the app store icon to download the app now to your smart device

3. Scan the QR code with your smart device to link directly to your app store

New updated App V2.2

### What is new in the app?

- » **Output Control** which allows the control of electrical systems ranging from heating and air-conditioning, to lighting and gate control via the App. Users can control these systems remotely enabling remote home & business automation from any smart device. This function also enables simple control of panel outputs.
- » **Multiple Sites enhancement** - up to 20 sites can now be managed via the App (an increase from 5 in the previous version of the App).
- » **Built-in User Guide** – updated with Output section
- » **EULA** update which allows the release of the App in other regions – UAE

The App supports the same firmware versions as GX Remote Control v1.x, v2.1. It requires the following firmware versions of the Galaxy Flex and Galaxy Dimension control panels.

- Galaxy Flex V3 Firmware V3.17 (Available)
- Galaxy Dimension Firmware V6.92 (Coming soon)

### NEW - Server Software v5.1 for Fusion IV Rev. C & Rev. B DVRs and NVRs

We are pleased to announce that the new Fusion IV Server software v.5.1.0.3001 is now available and is compatible with both Rev B and Rev C platforms. We have recently commenced the transition to the new Fusion IV Rev C hardware from our current Fusion IV Rev B DVR and NVR products with the existing FIV Server Software v4.50.10808.

#### Key new features:

- » Windows® 7 Embedded Operating System on-board and a new motherboard installed that includes a more powerful CPU and additional RAM with Dual Network cards.
- » Refreshed and attractive local GUI that offers an updated design for live, Search & Playback and Setup screens for a more contemporary look and feel.

» Internal storage from 2TB up to 16TB (DVR) and up to 24TB (NVR), as new 4TB HDD is now available.

## Honeywell Security Academy Highlights

### ADI Roadshows in Czech Republic and Slovakia - May/June 2015

We presented our product portfolio in Prague, Brno, Ostrava and Bratislava over the last few weeks. The events were very successful with more than 500 attendees in total! We held a special Galaxy contest and the winners were awarded our IP micro dome camera. Congratulations to all lucky winners and participants!

More about upcoming trainings and events [HERE](#)

## AWARD @ ISC - MAXPRO Mobile App

The Honeywell MAXPRO® Mobile app won the Security Industry Association (SIA) New Product Showcase (NPS) Award presented at the [2015 ISC West](#) security trade show in Las Vegas. The MAXPRO Mobile app allows end users to connect to MAXPRO NVRs, MAXPRO Cloud and Rapid Eye DVRs from a remote location.

## Product Discontinuations

### Fusion IV Rev B discontinuation and Transition to Fusion IV Rev C models

See all replacing models [HERE](#)

### Galaxy Telecom Module – Discontinuation

The module has become end of life and has no direct replacement. In the event of faults within existing systems, Honeywell recommends to replace both control panel and telecom modules with the latest Galaxy solutions including Galaxy Flex and Galaxy Dimension control panels which have integrated telecom communicators.

Affected part numbers :

**E062-43** (Czech Republic)

**E062-01**(other EE countries)
