# MARKETING BULLETIN
Honeywell Security and Fire

Subject: Product Release
Product range: MAXPRO® NVRs/VMS
Product Manager: Ulrich Hopfstock
(ulrich.hopfstock@Honeywell.com)
Date: March 16th, 2018

We are pleased to announce a new release of Honeywell's MAXPRO NVRs 4.9 and VMS R490.

→ What's new

👍 MAXPRO Offering Value Details

🔧 Benefits to System Integrator

👤 Benefits to End User

1– equIP camera multicast streaming support – (VMS & NVR)

👍 Bandwidth saving for multi-client systems

🔧 Reduce support calls due to network infrastructure limitation

👤 Reduce network infrastructure complexity and equipment costs;
Allow viewing the Live video continuously in VMS clients despite any interruption in NVR recorders.

2– License Plate Recognition Dashboard w. equIP 6MP cam (*) – (VMS)

👍 Visualize vehicle management for operation optimization

🔧 Able to bid for projects with closed campus; easy maintenance w. end-to-end solution

👤 Reduce facility operation costs with efficient vehicle management

3– Auto Retry for Profile–G Edge Storage Sync (Network Failure Recovery) – (NVR)

👍 New parameters with MMshell to retry downloading edge clips previously failed in scheduled backfill

🔧 Solve customer site edge storage sync issues due to complicated network environment

👤 Higher reliability with edge storage sync;
Saving manpower from manually downloading backfill failed clips from cameras

4– Event recording & GUI configuration for On–Demand Streaming – (NVR)

👍 Enable event based recording during on-demand video streaming, Two-level configuration in GUI instead of editing registry

🔧 Straightforward GUI operation reducing installation and sustaining costs

👤 Reduce Infrastructure and Operational Costs for Remote Sites with Limited Connectivity While Maintaining Effective Security with both Live Video and Recording

5– Easy installation / upgrade – (NVR)

👍 Upgradable directly from NVR 4.0 B87 Rev H, 4.1 B123 Rev B, 4.5 B162 & 4.7 B188

Save upgrade time on customer site

Reduce chance of error in multi-step upgrade

6– GUI Improvements – (NVR)

Network Path Support for NAS

Save installer efforts from manually mapping Network Drive to NAS URL

Easy maintenance with direct NAS URL

(*) LPR release pending upon CCB Decision on Camera Firmware Release
