Product Release

MAXPRO® NVRs 4.7

MAXPRO® VMS R470

We are pleased to announce a new release of Honeywell's MAXPRO NVRs 4.7 and VMS R470.

→ What's new

👍 MAXPRO Offering Value Details

🔧 Benefits to System Integrator

👤 Benefits to End User

1– Global Bookmark

👍 Efficient investigation

🔧 Able to bid for projects with 24/7 monitoring and frequent playback esp. in casinos

👤 Save time for proof replay in investigation: a bookmark created is a time bookmark which can be used for other cameras and see what exactly happened in other cameras' FOV, which helps locate a scene or incident much faster.

2– 4K ENVR integration with MAXPRO VMS

👍 Cost effective recording with all cameras (with limitations)

🔧 Able to bid for budget projects requiring access control integration

👤 Cost effective recording supporting all cameras

3– equIP® camera multicast streaming

👍 Bandwidth saving for multi-client systems

🔧 Reduce support calls due to network infrastructure limitation

👤 Reduce network infrastructure complexity and equipment costs;
Allow viewing the Live video continuously in VMS clients despite of any interruption in NVR recorders.

4– MAXPRO NVR Profile G compliance listed on ONVIF website, compatible with 3rd party cameras

👍 Honeywell became 8th company for ONVIF Profile G listed on ONVIF website, ahead of Milestone & Avigilon;
Support 3rd Party - Tyco, Panasonic and Samsung cam edge recording sync to NVR

🔧 Flexible offering with interoperable camera and NVR

👤 Future proof, industrial standard edge storage sync solution.

5– Network Throttling options for VMS client rendering under low bandwidth streaming

👍 Allow managing the resolution and frame rate in low bandwidth sites for smoother viewing

🔧 Reduce support calls due to poor video quality under low bandwidth

👤 Smoother view of remote MAXPRO NVR site with low bandwidth

6– Easy installation of MAXPRO NVR 4.7

Upgradable from v4.0, v4.1, v4.5 directly to MAXPRO NVR v4.7 Build 184

Save upgrade time on customer site

Reduce chance of error in multi-step upgrade.

Other Changes with MAXPRO NVR 4.7

- **MAXPRO Web Configurator:**
  Enhanced the Web configurator user interface with new themes, for a better user experience while configuring the System, Server and Security configurations for Web client and mobile.

- **Transport Security:**
  Provided a check box for end to end security.

- **Goto Settings:**
  Introduced a shortcut option in Context menu to navigate to the camera settings screen from a camera panel. Right-click on any panel on the salvo layout and then select Go to Settings.

- **New Deletion Schedule:**
  Introduced new deletion schedule where user can now retrieve the recordings of the last 5 years.
