Honeywell

Date: August 2023 Marketing Bulletin HW23.9

To: All Engineered System Distributors (ESD)

Take Advantage of One Year Free CLSS Bronze and Silver Licenses until September 30, 2023

Honeywell Connected Life Safety Services will be ending the 'first year free' promotion from CLSS Gateway and CLSS Pathway activations. All new Gateway and Pathway activations will continue to enjoy 1 year free of CLSS Silver and Bronze licenses respectively, until September 30th. From October 1st forward, all Gateway subscriptions will be chargeable within 30 days of activation. For Pathway, all units with serial IDs that start with 2 or 5 or activated before September 30, we will honor first year free promotion. Units with different starting serial IDs, expected to begin shipping in October, will be chargeable within 30 days of activations. Existing Pathway units in stock either with you or distribution will continue to honor the 'first year free' promotion.

We are committed to providing best in class software solutions to our partners. We have continued to invest in CLSS, as seen by a continue release of new features, capabilities, and partners. In June, we announced our collaboration with multiple industry partners to support first responder information during an emergency. We also launched this video that speaks to the work we are doing to improve fire service response in the United States.

This year, we have moved to a modern billing platform that makes it easier to understand charges. We will hold a webinar to share further improvements and simplifications.

We appreciate your continued support of CLSS offerings as we continue to provide intuitive and valuable fire system management solutions to our channel partners, facility managers, building owners, authorities having jurisdiction and first responders. We encourage you to use the rest of the summer to activate as many Gateways and Pathways as possible to get a full year free.

Please reach out to your regional sales managers, customer service managers or write CLSS_SUPPORT@honeywell.com if you have any questions.

Sincerely,

James Taylor
Sr Offering Director
