Honeywell

Date: April 2024 Marketing Bulletin HW24.3

To: All Engineered System Distributors (ESD)

Connected Life Safety Services (CLSS)
Now Integrates with GoCanvas for Custom Compliance Form Building

Honeywell CLSS is proud to partner with GoCanvas, a leading mobile forms and data collection platform. This collaboration brings together the power of CLSS's innovative fire and life safety inspection solution, CLSS Checkpoint, with the robust digital form technology that GoCanvas provides. Together, we're enhancing the efficiency, accuracy, and accessibility of your inspection and maintenance processes.

Here's how it works:

1. **Submit Your Request**: Reach out to the CLSS Customer Service Team at CLSS.TECH@Honeywell.com to kickstart the process. Let them know what you need, and they'll ensure your request gets to us.

2. **Collaborate with Us**: Our CLSS team is here to turn your vision into reality. Expect direct collaboration with our experts, who will understand your unique requirements and design a custom report template that perfectly meets your needs.

3. **Seamless Deployment**: Once the custom form is ready, we'll deploy it straight to your CLSS account. You can effortlessly leverage it to automatically generate compliance reports in your customized template from any inspection conducted under your CLSS account.

Price Per Custom Report Request:

1. Small Reports (less than 7 pages): $1,500
2. Large Reports (8+ pages): $2,900

** Please note* the number of pages included in the custom report output will vary based on the number of devices included in the inspection. The Checkpoint team will work with you to define the report size and associated cost before development starts.

For your reference, see below for a list of standard compliance report templates currently available in CLSS Checkpoint:

- NFPA 72
- NFPA 72 Quarterly
- NFPA 72 2016
