Product Availability Notice - Panel / CLSS Gateway Bundle

Gamewell-FCI has long been a leader in the fire industry and has extended our offerings to provide ESDs with the tools to be more efficient and profitable through the implementation of Honeywell Connected Life Safety Services (CLSS). Honeywell has extended CLSS capabilities to cover more central stations and to enhance emergency response through connectivity to firefighter alerting while continuing to enhance remote diagnostics and digitized maintenance functionality.

Now, to encourage connected solutions to improve life safety outcomes and at the same time simplify the ordering process, Honeywell has created a single part number that can be purchased at a discounted rate that includes everything to create a connected system; panel, CLSS Gateway, and cellular module.

Below are the part numbers now available for purchase:

Part Number	Description	List Price
E3-CLSS-KIT-A	ILI-MB-E3 + CLSS Gateway + AT&T Module	\$2491.20
E3-CLSS-KIT-V	ILI-MB-E3 + CLSS Gateway + Verizon Module	\$2491.20
S3B-CLSS-KIT-A	SLP-BLK + CLSS Gateway + AT&T Module	\$3249.60
