Product Discontinuation: Canadian English-Only & French-Only Marked AV Devices

October 2020

System Sensor currently offers a full line of AV devices for the Canadian market with French/English, English-only, or French-only "FIRE" markings. To more efficiently serve our customers, System Sensor will be limiting the English-only marked products to our most popular models and all French-only marked products will be discontinued. System Sensor will also be limiting the ceiling speaker strobe models that ship with a trim plate accessory. **All bilingual French/English marked products will continue to remain available.**

Marking bezels are available as an optional accessory for English-only or French-only markings for the devices that are being discontinued. Bezel kits are sold in 5-packs and trim plates are sold separately in 10-packs. View the full line of marking bezels available here.

Models being discontinued will remain available through November 13, 2020 and after that date will only be available wihile supplies last.

System Sensor Canadian English-only AV models that will remain available:

Horn Strobe (Wall)	Horn Strobe (Ceiling)	Strobe (Wall)	Strobe (Ceiling)	Strobe (Compact)	Speaker Strobe (Ceiling, Wall)
