NOTIFIER by Honeywell

NOW AVAILABLE! New LTE / IP Single or Dual Path Fire Alarm Communicators

June 2019

NOTIFIER is pleased to announce the release of the HWF2V-COM (Verizon) and HWF2A-COM (AT&T) Single or Dual Path LTE/IP Fire Alarm Communicators, replacing the previously available IPGSM-4G. These new communicators connect to the ports on your NOTIFIER panel's digital alarm communications transmitter (DACT) and connect to central stations through the fully redundant, 24/7 AlarmNet® network control center.

Features of the new communicators include:

- Configurable for single or dual path
- 3 Selectable reporting paths available (LTE only, IP only, or IP primary with LTE backup)
- Supervision timing intervals (5 minutes, 60 minutes, 6 hours, 24 hours)
- (2) Antennas to support LTE cellular service

We are currently accepting orders for both the HWF2V-COM (Verizon) and HWF2A-COM (AT&T) Communicators. The Verizon version will begin shipping immediately. The AT&T version is expected to begin shipping by the end of June 2019.

For additional details, please refer to the datasheets and products pages for LTE / IP Single or Dual Path Fire Alarm Communicators on our website, www.notifier.com.

Please contact your Customer Service Representative at 1-800-289-3473 for ordering information. For any technical questions pertaining to this notice, please contact Technical Service at 1-800-289-3473 or NOTIFIER.tech@honeywell.com.

Thank you for your business and continued support!

Regards,

Jacob Frasier
Product Marketing Manager, NOTIFIER
