NOTIFIER by Honeywell

UL Listed LED Display

March 11, 2019

NOTIFIER is pleased to announce the release of our new UL listed LED sign. The OAX2-24V**2** replaces our previous offering, OAX2-24V, features a modern, frameless display and uses 24VDC power (power over ethernet is not supported).

The OAX2-24V2 connects to NOTI-FIRE-NET through the LED Sign Gateway, using firmware version 4.30 and higher concurrently supporting our previous LED sign, OAX2-24V, and LED sign, OAX2-24V**2**.

NOTIFIER's UL listed LED Sign and LED Sign gateway are key pieces of for best-in-class Emergency Communications Systems. Automatically displaying emergency messages along with optional color changes that attract attention during emergencies, the OAX2-24V2 messages are securely controlled from NOTIFIER fire alarm control panels through encrypted network protocols. When paired with ONYXWorks, LED sign can display real-time message updates to alert occupants of new information as situations unfold.

When placing an order for the LED Sign or LED Sign gateway, please use the following part numbers. Please note: Standard discount to net applies.

PART NUMBER	DESCRIPTION	LIST PRICE
OAX2-24V**2**	UL Listed LED Sign. 24V Power Only.	$2,393.10
