Document No. M22.2

# LEDSIGN-GW and OAX2-24V2 – Discontinuation

In an effort to offer the right solutions for our customers, we periodically review and streamline our product offering. **Effective September 21, 2022, the LEDSign gateway (p/n LEDSIGN-GW) and LED Sign (p/n OAX2-24V2) will be discontinued.**

As announced earlier this year, to support new installations NOTIFIER has introduced the **CLSS Gateway – Advanced Notifications Feature** which provides state-of-the-art cybersecurity standards and seamless integration between NOTIFIER and third-party software systems, while enabling our next generation of fire protection systems.

Designed to support a broad network of third-party software providers, the Advanced Notifications Feature currently supports system integration with Intrado Revolution. Intrado Revolution is a comprehensive mass notification platform that communicates critical information efficiently and reliably to improve the safety of building and campus occupants in emergencies.

The CLSS Gateway – Advanced Notifications feature enables events from the fire system to trigger Mass Notification System message delivery via app alerts, text, email, digital displays and desktop alerts. The CLSS Gateway – Advanced Notifications feature offers the following valuable benefits:

- Seamless Integration…select applicable third-party software system in CLSS
- Compatibility: Supports NOTIFIER INSPIRE and ONYX panels
- Scalable: Connect an unlimited number of buildings…NOTIFIER panels and NOTI•FIRE•NET™ (NFN) networks
- Secure connection to CLSS Platform

**The following part numbers will be discontinued effective September 21, 2022:**

| PART NO | DESCRIPTION |
|---|---|
| LEDSIGN-GW | UL LISTED SIGN MESSAGE GENERATOR GATEWAY, USE WITH OAX2-24V. EACH GATEWAY CAN CONTROL UP TO 10 OAX2-24V SIGNS |
| OAX2-24V2 | UL-LISTED LED SIGN |

**Critical Dates**

***Last date we will accept orders:***

Orders for part number LEDSIGN-GW and OAX@-24V2 must be received prior to September 21, 2022.

***Requested ship date for orders:***

The requested ship date for LEDSIGN-GW and OAX2-24V2 must be prior to September 30, 2022.

## FAQ's

1. **Which panels will the CLSS Gateway – Advanced Notifications support?**
   The CLSS Gateway – Advanced Notifications will support NOTIFIER INSPIRE and ONYX Panels.

2. **What is the pricing for CLSS Gateway – Advanced Notifications feature?**

| | | |
|---|---|---|
| CLSS Gateway – Advanced Notifications | Annual Fee - per Fire Panel | 300 tokens |

   The CLSS Gateway – Advanced Notifications price is the fee for connection to 3rd-party software systems and does not include the cost for the 3rd-party software.

3. **Do I need a programming license in order to install the CLSS Gateway – Advanced Notifications feature?**
   No.

4. **How do I order and purchase the CLSS Gateway with Advanced Notifications feature?**
   - The CLSS gateway (p/n HON-CGW-MBB) can be ordered from Honeywell Customer Service.
   - The Advanced Notifications feature can be purchased on CLSS Site Manager.

5. **What gateway firmware is required for the Advanced Notifications feature?**
   CLSS Gateway firmware 3.1.4.74 or higher is required.

6. **Are there any panel firmware updates needed?**
   The CLSS gateway is compatible with the latest INSPIRE and ONYX panels firmware available on the ESD website.
