CLSS Horizon Intelligent Graphical Interface

NOTIFIER is excited to announce the release of CLSS Horizon, the next generation in life safety management. The cloud-connected Horizon graphical interface delivers smart, scalable technology for on-premises or remote fire alarm system monitoring – empowering users to make informed, real-time decisions when seconds count!

Designed for single and multi-building applications, CLSS Horizon streamlines life safety operations and provides users with enhanced situational awareness through graphic visualization.

Paired with the CLSS-Gateway, CLSS Horizon can be cost-effectively installed on a site's existing network and provides state-of-the-art cybersecurity standards.

CLSS Horizon is powered by the CLSS platform and offers the following valuable benefits:

- **Compatibility:** Supports **NOTIFIER INSPIRE™, ONYX,** and **FireWarden** panels
- **Scalability:** Connect an unlimited number of buildings seamlessly…and **monitor multiple sites**
- **Secure connection** to the CLSS Platform

Please be sure to join us for a webinar on March 31st to experience the full capabilities of this next generation technology!

CLSS Horizon is available to purchase now on www.fire.honeywell.com.
Please visit www.NOTIFIER.com for product documentation.
