New FireWarden Addressable Devices

October 2018

NOTIFIER's FireWarden addressable detectors are now available in the US! Technological enhancements with our new line will help drive increased profitability with your business while reducing your customers total cost of ownership.

VALUE TO YOUR BUSINESS

- Spend less time cleaning devices with a more dust resistant chamber
- New sleek design – be the preferred choice for architects focused on aesthetics
- Meet more customer requests with our expanded color offering now available on more devices

VALUE TO YOUR CUSTOMER

- Sensors designed to meet the upcoming U.S. code compliance (the new, strict UL268 7th edition for 2020) without the need for costly software or hardware changes
- Eliminate base re-wiring costs with backwards compatibility to our current 6" base (B210LP)
- Reduce nuisance alarms with improved infrared performance (flicker detector instead of light detector)

* Indicates device is available in both CLIP and FlashScan protocols
