Important Updates - New Addressable Sensor Line in 2018

June 2018

NOTIFIER's core addressable sensor line of detectors, bases and accessories are now available in the US! Technological enhancements with our new line will help drive increased profitability with your business while reducing your customers total cost of ownership.

VALUE TO YOUR BUSINESS

Decrease Labor Demands – Simplified Installation and Maintenance

- Spend less time cleaning devices with a more dust resistant chamber

Pursue New Opportunities in Applications Focused on Modern, Contemporary Aesthetics

- New sleek design – be the preferred choice for architects focused on aesthetics
- Meet more customer requests with our expanded color offering now available on more devices

VALUE TO YOUR CUSTOMER

Improve Business Continuity – For the Building's Future

- Sensors designed to meet the upcoming U.S. code compliance (the new, strict UL268 7th edition for 2020) without the need for costly software or hardware changes

Reduce End-User's Total Cost of Ownership

- Eliminate base re-wiring costs with backwards compatibility to our current 6" base (B210LP)
- Reduce nuisance alarms with improved infrared performance (flicker detector instead of light detector)

IMPORTANT! NEW AND EXISTING PRODUCT AVAILABILITY

Refer to subsequent pages for a cross reference guide, including new colors, protocols and product availability.

1. Additional product in the line will be launched in phases throughout 2018
2. The new detection line will replace our current ONYX® and FireWarden (US only) series of addressable devices
3. The current line of detectors/bases will be phased out over the remaining months in 2018. To help guide your transition, NOTIFIER asked that you please be aware of these transition dates:
    a. Pricing on the current line will see price adjustments effective July 16, 2018. **Please refer to the 2nd tab on the May2018 Price List for pricing**
    b. Current orders and approved quotes in the system for existing project need to be shipped by December 15, 2018.
    c. As we transition, availability of our current line will be phased out, and will have limited quantities in Q4, 2018. Product will be made available during this time, while supplies last.

On the following pages, please find the product availability launch plan, along with a product cross reference. Moving forward, please look for future communications regarding additional launch phases, product availability dates, datasheets and supporting collateral for our new line.

For any technical questions pertaining to this notice, please contact Technical Service at 1-800-289-3473 or NOTIFIER.tech@honeywell.com.

Thank you for your business and continued support!
