SMOKE & HEAT DETECTORS BULK PACKS

NOTIFIER is pleased to announce the launch of new bulk packs for our smoke and heat detectors available to order starting March 1, 2023. The bulk packs include ten (10) of the below options:

- FSP-951R White photoelectric smoke detectors (Remote test capable)
- FST-951 White thermal detectors

The bulk pack improves efficiencies across the order entry and installation process through:

- Simple ordering, storage, and inventory tracking using a standard quantity
- Faster operation on the job site with fewer boxes to open and discard
- Improved sustainability through less packaging and material waste

The new bulk packs are priced comparable to ten (10) single units today. We will continue to offer the single detector package format at a slightly higher price on new orders, effective March 1, 2023.
