First Command Now Available!

July 1, 2013

Dear Valued Business Partner,

NOTIFIER is pleased to announce that First Command family of products is now available! This Emergency Communications Systems (ECS) solution will enable you to meet or exceed the ECS and Mass Notification needs of small to medium, standalone applications such as churches, warehouses, theaters, military bases or other installations that do not require a networkable solution.

Some of First Command's features include:

Expandable	• Primary control unit ships standard with 50 watts, upgradeable to 100 watts, both with 8 speaker circuits • Distributed amplifiers provide the ability to expand the total system capacity to 1,100 watts and 24 speaker circuits
Full line of peripheral products	Each system supports up to 8 of First Command's peripheral products, in any combination, including: • Local Operator Console (LOC) • Remote Paging Unit (RPU) • Remote Microphones (RM) The First Command product line also includes a standalone Firefighters Telephone system.
Customizable pre-recorded messages	• Up to 14 unique, pre-recorded messages • Can be field recorded or downloaded from First Command's library of messages • Each pre-recorded message can be up to 60 seconds in length
Live voice capable	Built-in microphone for live paging, all-call or selected speaker circuits
Flexibility to work with any fire alarm system	• Serial integration* with select NOTIFIER addressable fire panels streamlines the installation

	• Standard dry contact or reverse polarity integration with any other fire panel
On-board NAC power	• Built-in 2 Amp NAC
Fully compliant with the latest codes and standards	• UL 2572 listed for Mass Notification/Emergency Communications • UL 864 listed for emergency voice evacuation • Meets NFPA 72 Chapter 24 Emergency Communications requirements • Unified Facilities Criteria (UFC) 4-021-01 compliant

*Serial integration with the NFS-320 and NFS2-640 will be supported in the next release of panel firmware, presently expected to be released mid-August 2013.

Resources & Support:
Visit the NOTIFIER ESD Portal for more information on FirstCommand, including:

- First Command interactive digital sales guide
- First Command data sheets
- First Command installation manual
- Complete Life Safety and ECS Solutions Guide
- NOTIFIER's End User Emergency Communications Systems interactive demo, now updated to include First Command

Please contact your NOTIFIER Customer Service Representative with any questions regarding First Command pricing and availability. As always, technical questions should be directed to NOTIFIER Technical Services at 1-800-289-3473 or NOTIFIER.tech@honeywell.com.

Product discontinuation reminder:
As previously communicated, the NOTIFIER FireVoice 25/50 series (NFV-25/50 series) has been discontinued and First Command is the suggested replacement for new applications. Note that First Command is an entirely new product line and as such are not compatible with any of the FireVoice series products.
