NOTIFIER by Honeywell

Product Bulletin

RMK400/SMK400E Product Retirement Announcement

As a manufacturer of a wide variety of fire alarm products, we periodically evaluate our product line to determine which models represent a low level of need for our customers. After recent evaluation, NOTIFIER has decided to discontinue the following models due to historically low sales volumes:

Model Number:	**Description:**
RMK400	Recessed Mounting Kit; 400 and 500 detectors
SMK400E	Flangeless Surface Mounting Kit

Both models will be discontinued effective immediately.

Questions
Please contact your NOTIFIER Customer Service Representative with any ordering related questions. Please contact NOTIFIER Tech Services with any technical questions regarding this notice, and Dan Corbett (Product Marketing Manager) with product questions.

Sincerely,

Richard Conner
NOTIFIER Product Marketing Manager
