

ROME-B Now Available

April 8, 2011

NOTIFIER announces the availability of the UL 864 listed ROME-B (Relay Option Module Enclosure). The ROME-B ships with one N-ANN-RLY installed. The N-ANN-RLY contains 10 programmable Form-C relays for use compatible fire alarm control panels incorporating an ANN-BUS communication circuit. The ROME-B can be installed in remote locations, such as elevator or equipment rooms, up to 1,250 feet away from the control panel reducing wiring cost and installation time.

The ROME-B accommodates the installation of one additional N-ANN-RLY relay module or one addressable multi-model for applications that require additional programmable relays or the convenience of housing an addressable multi-module in the same enclosure.
