Product Announcement

Introducing PRN-7 Desktop Serial Interface Printer

NOTIFIER is pleased to announce the new PRN-7 desktop serial, dot-matrix printer.

The PRN-7 printer is used with NOTIFIER fire alarm control panels, network annunciators and graphic workstations with printer capability to provide a written record of system events and status changes.

Some key PRN-7 features include:

- Provides a hard copy printout of all system events and status changes.
- Time stamps printed on the record of each event and status change with the current time-of-day and date.
- Uses standard 9” x 11” tractor-feed fan-fold paper.
- Provides 80 columns of data at 10 characters per inch.
- Printed records of system configuration and addressable devices parameters

Orders for the PRN-7 will be accepted in Mid-May of 2015. With the release of the PRN-7, the PRN-6 will be discontinued. Once PRN-6 inventory has been exhausted any orders for the existing PRN-6 will need to be changed to the PRN-7.

Please contact your Customer Service Representative at 1-800-289-3473 for pricing or ordering information.

For any technical questions pertaining to this notice please contact Technical Service at 1-800-289-3473 or notifier.tech@honeywell.com
