THE POWER OF CONNECTED

Farenhyt™ Series

Date: May 2019 M19.7

To: All Farenhyt Series Distributors

Product Discontinuation Notice - Legacy IDP Series Detectors and Bases

With the release of the Fire/CO and PTIR detectors, Farenhyt will have the full line of Farenhyt Series Black IDP detectors and bases. To put factory resources on production of the new products, we will be discontinuing the legacy detector line in its entirety with **last order date of July 1, 2019 or while supplies last**. Final shipping date for these products will be July 31th, 2019 to ensure delivery.

With the high risk of products running out of stock prior to July 1st, please verify availability with Customer Service prior to ordering. To ensure you have detectors for projects, consider switching new orders to the new Farenhyt Series Black IDP product line.
