Honeywell
THE POWER OF CONNECTED

Farenhyt™ Series

Date: May 2019 Marketing Update M19.8

To: All Farenhyt Distributors

Product Discontinuation Notice – System Sensor Beam Detectors

Farenhyt will be ending manufacturing production of the legacy System Sensor Addressable and Conventional Beam Detectors. **Last order date will be May 31st, 2019**.

IDP-BEAM, IDP-BEAM-T, BEAM1224 models ls have been replaced by the new OSI Imaging Beam Detectors, previously announced in Marketing Update M19.2

Using Xtralis's exceptional OSID technology, these OSI models use many of the same accessories as the System Sensor beam including the reflector, test switch stations and mounting kits with no programming changes on the Farenhyt fire alarm panels.

The new beam detector is available to order now! Pricing is shown in the 2019 Price List.

NEW MODEL	LEGACY MODEL	DESCRIPTION
OSI-RI-FH	IDP-BEAM, IDP-BEAM-T	Farenhyt IDP intelligent beam detector with reflector, UL listed
OSI-R-SS	BEAM1224, BEAM1224S	Conventional beam detector with reflector, UL listed

Sincerely,
Brian Carlson
