To: All Gamewell-FCI Distributors

Software Compatibility Charts

Upgrade choices concerning E3 firmware, FocalPoint® and CAMWorks

With the addition of new System Sensor and Apollo products to the E3 Series® line, keeping track of CAMWorks and ILI firmware versions can be difficult and mistakes costly. Gamewell-FCI has developed two new compatibility charts to visually assist you in proper selection of E3 firmware, Focalpoint and CAMWorks version to use. Both charts will be updated periodically and are available on the Gamewell-FCI website.

E3 Firmware Compatibility Chart

Updated DEC 16,2011 Firmware Compatibility Document		ILI-MB / S					ILI95-MB / S					NGA				ANX		7100		
		v 1.04.001	v1.05.002	v 1.07.011	v2.04.088		v1.09.001	v2.00.002	v2.02.011	v2.04.088		v2.00.691	v2.10.014	v2.20.024		v1.00.049		v6.04.160	v7.01.001	v7.00.156

	v6.04.160	X	X	X	X	X	X		X*	X**	X**

X*	Supports Stand Alone (SA) or Network with an ILI-MB
X**	Supports Stand Alone (SA) Only

New ILI firmware V2.04.088 and ILI95 firmware V2.04.086 have recently been released to the field via the Gamewell-FCI website and newly produced boards will have the new software installed. These versions are incompatible with ALL versions of CAMWorks prior to V2.20.25. If a configuration download is made to an ILI/ILI95 running these new versions from a previous version of CAMWorks, a CHECKSUM ERROR will be displayed at the end of the configuration download. There are two solutions:

1.) Upgrade to CAMWorks V2.20.25. This version is backward-compatible with older firmware down to V1.03.804 (ILI) or V1.07.804 (ILI95) and also compatible with the newly released firmware.
2.) Downgrade the ILI/ILI95 to a previous version of firmware.

If you have any questions, please contact Gamewell-FCI Technical Support.
