

Product Announcement: SWIFT® Wireless AV Bases, Pull Stations and Sync Module
 January 2019

Fire-Lite Alarms and System Sensor are pleased to announce the availability of some exciting new additions to the SWIFT® wireless product family including wireless AV bases, pull stations and a sync module.

SWIFT (smart wireless integrated fire technology) systems seamlessly integrate and now synchronize visibly and audibly with existing wired installations.

SWIFT systems provide a unique level of reliability enabled by a smart, true mesh, technology. With redundant paths of communication at all times, SWIFT ensures a class A system and reliability where it matters the most. The new SWIFT products integrate seamlessly with current Fire-Lite addressable fire alarm control panels as well as with existing Fire-Lite wireless installations allowing you to conquer challenging obstructions associated with traditional wired installations.

New Part Numbers Available:

BRAND	MODEL NUMBER	DESCRIPTION
FIRE-LITE ALARMS	W-BG12LX	SWIFT WIRELESS PULL STATION
FIRE-LITE ALARMS	W-BG12LXSP	SWIFT WIRELESS PULL STATION; SPANISH
SYSTEM SENSOR	WAV-CRL	SWIFT WIRELESS AV BASE; CEILING; RED
SYSTEM SENSOR	WAV-CWL	SWIFT WIRELESS AV BASE; CEILING; WHITE
SYSTEM SENSOR	W-SYNC	SWIFT WIRELESS SYNC MODULE
SYSTEM SENSOR	W-BATCART	SWIFT WIRELESS BATTERY CARTRIDGE (10-PACK)

Key new product features and system upgrade information:

- AV Bases:
 - Wireless addressable ceiling AV bases are compatible with System Sensor L-Series ceiling notification appliances including: Horn, Horn/Strobe, Chime, Chime/Strobe, and Strobe
 - White and red models available
 - Magnet walk-test available to conserve batteries during commissioning
 - Powered by (8) CR-123 lithium batteries (included)
- Pull Stations:
 - Same look and feel as current wired pull stations
 - Integrated LED to display operating status
 - Available in English or Spanish
 - Powered by (4) CR-123 lithium batteries (included)
- Sync Module:
 - Enables visible and audible synchronization between wired and wireless AV appliances
 - Supports System Sensor sync protocol
 - Can be used to synchronize remote power supplies and monitor power supply trouble output
 - Powered by 24V with (4) CR-123 lithium batteries (included) for backup to maintain mesh

- SWIFT 3.0 System Upgrades:
 - Supports Windows 10
 - Automatic W-USB updates. No more searching for files and manually updating.
 - “Service pack” approach to download. No need to download one by one anymore.
 - Enables future upgrades to be completed over the mesh instead of device by device.

Note: All SWIFT devices on the same system must be using the same firmware version. Older SWIFT devices can be updated to the latest firmware using SWIFT Tools 3.0.

Contact your preferred Honeywell authorized security equipment distributor for ordering and pricing information.
