

Get the job done on time and under budget.

The new MVN rotary valve actuator for use with control ball valves and pressure regulated control valves reduces labor costs associated with mechanical and electrical installation, commissioning and service. This innovative design makes assembly easy, saving you time and money.

TOOL-FREE INSTALLATION

The unique design dramatically cuts installation time. Honeywell's exclusive click-on assembly simply snaps onto the valve — no tools needed. And the position indicator, another Honeywell exclusive, shows the position of the valve from any angle for easy commissioning. From testing the installation to monitoring the valve position, you'll spend less time on the job.

INSTALLATION FLEXIBILITY

The MVN actuator not only saves time, it saves space. Thanks to the compact design, you can use the MVN in confined areas or simply take advantage of more working room in normal spaces. Plus, multiple wiring options allow flexible electrical installation. Options such as a removable terminal block, an attached cable and a conduit connection, give installers the flexibility to meet the requirements for a specific project.

JUST YOUR SIZE

Because of the lower torque requirement of Honeywell valves, the MVN actuator can be used on valves up to 1-1/4" diameter. Just click the MVN onto any of a wide range of compatible commercial valves and you're ready to begin commissioning.

BACKED BY HONEYWELL

You take pride in doing the job right and your customers depend on you. You need to be able to trust the products you use and you can count on Honeywell. From a five-year warranty to training and technical expertise you can depend on Honeywell support just as you depend on Honeywell products.

FAST TRACK™

It all starts with the Fast Track tool, which helps you select the right valve and actuator combinations for the job. Ordering the valves and actuators as assemblies ensures proper selection and assembly. The smart tag ensures delivery to the right place at the right time, provides project and product information as well as electronic installation and commissioning instructions.

THE RIGHT CHOICE, MVN

Fast, flexible installation combined with easy commissioning and service help you finish your projects on time and under budget.
