

wireless = easier life

The Honeywell G2 series security system – simplicity itself for small commercial premises, with wireless innovation.

A fully hybrid control panel range providing from 12 to 44 zones. Incorporating intelligent self diagnostics, supported by an effective PC application, the G2 series range of control panels continues the philosophy of easy to use, installer friendly, high performance, maintainable intruder products.

You can rely on Honeywell as your partner of choice for DD243 compliant systems.
