

3-Clicks to Live Video!

MAXPRO® NVR XE and Performance Series IP Cameras

Now you can offer your customers all the advantages of HD quality IP video with Honeywell's new entry level security solution—MAXPRO® NVR XE and Performance Series IP cameras. Our latest network video recorder features simple and logical configuration pages that make setup a breeze—even for the novice installer.

It's a total solution right out-of-the-box—creating a powerful high definition IP recording and security system that's perfect for small installations. For a seamless transition from analogue to IP, choose MAXPRO NVR XE. It's 3-clicks to live video!

Our latest IP solution comes with all required software pre-installed, so it's as easy as a DVR to set up and operate.

An intuitive quick start wizard guides you to live video in only 3-clicks, which means installation is easy—so you can complete more installations in less time!

Key Benefits

- Complete Honeywell HD solution right out-of-the-box.
- As easy to install and operate as a DVR – no IT expertise required.
- HD-quality video captures sharp pictures of objects, people and activity, leading to more accurate identification and better resolution of security issues.
- Affordably priced so even the smallest of businesses can benefit from HD pictures.

Perfect For

- Small to medium-sized businesses that need better picture quality for improved security solutions.
- End users who want to transition from analogue to IP while taking advantage of the latest technology.
- Small to medium-sized businesses that want an entry level HD solution at a competitive price.
