

IT'S BUSINESS AS USUAL UNTIL NOW.

Introducing the Honeywell Silent Knight® 6000 Series

When Silent Knight is on guard, you won't get caught off guard. Our next generation of fire panels and accessories provide a familiar interface with dynamic configuration options. Now empowered with more addressable points, versatile SWIFT® wireless capabilities, additional communication options and more.

Capable. Flexible. Reliable.

Honeywell

HONEYWELL SILENT KNIGHT 6000 SERIES

FIRE ALARM CONTROL PANEL (FACP) CAPABILITIES

- Supports up to 1,110 points for larger and more complex installs (6820 and 6820EVS only)
- For enhanced design flexibility, additional signal line circuits (SLCs) can be added until maximum point levels are reached
- Connect up to 17 panels with convenient, single-panel visibility
- SWIFT® wireless detection through a Class A mesh network – ideal for hard-to-wire locations, buildings where new wiring is not allowed, and easy installation at new construction sites

FIRE ALARM CONTROL PANEL (FACP) FEATURES

- The 6820EVS panel meets the UL2572 requirements for mass notification systems and can support up to 8 amplifiers or 1,000 watts of distributed power
- Integrated, dual path IP and POTs communications for reliable backup
- USB interface for quick and convenient programming
- Convenient, field-upgradeable firmware saves time and money
- Fully backwards compatible
- Four programmable buttons to minimize time spent executing tasks (6820EVS and 6860 remote annunciator only)

Programmable buttons on 6820EVS

For CLSS-Enabled LTE fire communications, choose the HW-TG7L Series in either Verizon or AT&T models.
