

## OneWireless Wireless Device Manager

## Model Selection Guide

### Instructions

Select the desired key number. The arrow to the right marks the selection available.

Make one selection from Table I. Select Table II options as desired.

### KEY NUMBER

Description	Part Number	Selection	Avail.
Wireless Device Manager (Notes 1, 2, 3, 5, 6) includes: DIN Rail mounting hardware, power connector	51198663-200	WDMX	•

### TABLE I - Power Supply

Description	Part Number	Selection	Avail.
No power supply	N/A	00	•
24VDC Power Supply	51198676-100	PS	•

### TABLE II - Interface Options (Notes 6, 7)

Description	Part Number	Selection	Avail.
WDM HART Interface	OW-WDMHRT	HI_____	•
No HART Interface		00_____	•
WDM OPC Interface	OW-WDMOPC	__OI_____	•
No OPC Interface		__00_____	•
WDM Enraf Interface	OW-WDMERF	____EI_____	•
No Enraf Interface		____00_____	•
WDM GCI Interface	OW-WDMGCI	____GI_____	•
No GCI Interface		____00_____	•
WDM CDA Interface	OW-WDMCDA	____CI_____	•
No CDA Interface		____00_____	•

### TABLE III - ISA100 Wireless Access Point (FDAP/Cisco 1552S AP) CAL

Description	Part Number	Selection	Avail.
Additional ISA100 Wireless Access Point Connection (FDAP as an AP or Cisco 1552S) (Notes 4, 6, 7)	OW-WDMBBR	0__	•

### TABLE IV

Description	Part Number	Selection	Avail.
Factory Use	N/A	00	•

### TABLE V - OneWireless Software License

Description	Part Number	Selection	Avail.
No Software License - R240 (Strictly- HON internal Use and Replacements only) (Note 8)		N240	c
No Software License - R230 (Strictly - Replacements Only) (Note 9)		N230	c
OneWireless R240 Base License with (Notes 6, 10) 4 X ISA100 AP (FDAP as an AP or Cisco 1552S) WDM Modbus Interface Printed Software Release Note OneWireless Network R240 Electronic Documentation on a CD	OW-WDM240	R240	•
OneWireless R230 Base License with (Note 6, 11) 4 X ISA100 AP (FDAP as an AP or Cisco 1552S) WDM Modbus Interface Printed Software Release Note OneWireless Network R230 Electronic Documentation on a CD	51153920-001 Rev G		
OneWireless R230 Base License with (Note 6, 11) 4 X ISA100 AP (FDAP as an AP or Cisco 1552S) WDM Modbus Interface Printed Software Release Note OneWireless Network R230 Electronic Documentation on a CD	OW-WDM230	R230	•
OneWireless R220 License with (Note 12) Printed Software Release Note OneWireless Network R220 Electronic Documentation on a CD	51153920-001 Rev F		
OneWireless R220 License with (Note 12) Printed Software Release Note OneWireless Network R220 Electronic Documentation on a CD	OW-WDM220	R220	c
OneWireless R240 Upgrade License for Existing Users (Note 13,14) Printed Software Release Note OneWireless Network R240 Electronic Documentation on a CD	51153920-001 Rev E		
OneWireless R240 Upgrade License for Existing Users (Note 13,14) Printed Software Release Note OneWireless Network R240 Electronic Documentation on a CD	OW-UPG240	U240	c
OneWireless R240 Upgrade License for Existing Users (Note 13,14) Printed Software Release Note OneWireless Network R240 Electronic Documentation on a CD	51153920-001 Rev G		

**Restrictions**

Restriction Letter	Table	Available only with Selection	Table	Not available with Selection
a			II	HI, OI, EI, GI, CI
c	II	0000000000	II	HI, OI, EI, GI, CI, HS, OS, ES, GS, CS
	III	000, 100		

**NOTES:**

1. WDM requires 24VDC
2. A software license key is required to activate the OneWireless R240 and R230 software installed on WDM. Please refer to Table V for the license
3. Orders must be accompanied with the OneWireless Specifier.  
 The OneWireless Specifier is located in same locations as this MSG. The specifier needs to include the SO#.  
 The completed OneWireless specifier should be sent to [FPSoftwareLicense@honeywell.com](mailto:FPSoftwareLicense@honeywell.com)
- The specifier requires specific information for a new order, expansion or an upgrade. Orders without complete specifiers will be kept on hold.
4. In Table III, the user shall specify the number of additional ISA100 Access Points connections to the WDM. The base WDM includes a license for four (4) Access Points (AP). The first character is fixed as "0". As an example, if there are five (5) total APs in the system, please specify "001". If no additional AP connections are required, please specify "000". The valid range for Table III is 000 to 036.
5. Only one WDM order shall be placed at a time per system per end user
6. For secondary WDM do not order any options from Table II and Table III, but you must still chose the base license from table V for R240 or R230 as applicable
7. OneWireless R240/R230 License can be expanded at a later point by individually ordering options in Table II and Table III  
 However please review the existing license before ordering further options, so that same option is not ordered again accidentally
8. If this option is chosen factory will ship a WDM with R240 software with no license - Strictly for HON internal use and replacements only
9. If this option is chosen factory will ship a WDM with R230 software with no license - Strictly for replacements only
10. This is the base license for R240. Choose additional options from Tables II and Table III as needed.
11. This is the base license for R230. Choose additional options from Tables II and Table III as needed. (Optional only available for expansions)
12. No licensey key is needed to activate OneWireless R220 software installed on WDM. (Option only available for replacements and expansions.)
13. Chose this option for a WDM required to upgrade an existing system (R1XX, R2XX) to R240.
14. Existing OneWireless users with a WDM can request a free of cost upgrade to OneWireless R240 by ordering OW-UPG240.
