Gas Metering Made Smarter with Honeywell MasterLink

Configuring, calibrating and accessing data from electronic gas volume correctors is now easier than ever with Honeywell’s new MasterLink software.

MasterLink’s smarter, richer capabilities include intuitive dashboards that quickly reveal the health of instruments; automated configuration and calibration features that eliminate longstanding, time-consuming manual procedures; and seamless integration with mobile devices, meter data management and cloud-based data for unprecedented productivity and cost savings.

With alignment to the latest digital, IIoT and workforce mobility trends, MasterLink offers gas field engineers future-proofed peace-of-mind.
