

Directory of Available Molecule Sheets

Honeywell's molecule sheets provide generic pharmaceutical manufacturers with information about how Aclar® film can be used to package specific molecules. The sheets are available for the molecules below, each of which has at least some requirement for moisture barrier in its primary packaging.

- Acarbose
- Alendronic acid
- Amlodipine
- Anastrozole
- Atorvastatin
- Azithromycin
- Bethahistine
- Bisoprolol
- Bromocriptine
- Candesartan
- Captopril
- Cefaclor
- Cefuroxime
- Cetirizine
- Clarithromycin
- Clopidogrel
- Desloratadine
- Diclofenac
- Donepezil
- Duloxetine
- Enalapril
- Escitalopram
- Esomeprazole
- Exemestane
- Famciclovir
- Fenofibrate
- Fluvastatin
- Gabapentin
- Irbesartan
- Isotretinoin
- Itraconazole
- Lansoprazole
- Lercanidipine
- Letrozole
- Levetiracetam
- Levocetirizine
- Levodopa + Carbidopa
- Levothyroxine
- Lisinopril
- Losartan
- Meloxicam
- Memantine
- Metformin
- Methylphenidate
- Montelukast
- Mycophenolic acid
- Naltrexone
- Nebivolol
- Nevirapine
- Norfoxacin
- Olanzapine
- Olmesartan
- Omeprazole
- Oseltamivir
- Pantoprazole
- Perindopril
- Pioglitazone
- Pramipexole
- Pravastatin
- Quetiapine
- Rabeprazole
- Ramipril
- Ranitidine
- Risedronate
- Risperidone
- Rivastigmine
- Ropinirole
- Rosuvastatin
- Sildenafil
- Sumatriptan
- Tamsulosin
- Telmisartan
- Tolterodine
- Topiramate
- Torasemide
- Trimetazidine
- Valaciclovir
- Valsartan
- Venlafaxine
- Ziprasidone

Each of the molecules has:

- Commercially active sales (the molecule is being sold by multiple companies in multiple markets)
- At least one dosage form that is packaged in a high-moisture barrier format

Honeywell's molecule sheets allow you to review other companies' primary packaging materials and the resulting registered shelf life, helping you draw conclusions on the suitability of different primary packaging materials and platforms.

Generic pharmaceutical companies often copy the originator packaging for a particular molecule, even if the packaging decision may have been made almost 20 years ago. That same packaging may not be the right answer for your company, your product, or the marketplace today.

Contact Honeywell to help you choose the right Aclar barrier film to package your product.
