

# CANADIAN ERAP SERVICES

**Solstice expertise can help reduce the stress of transportation emergencies by supporting remediation efforts.**

Transport Canada requires an Emergency Response Assistance Plan (ERAP) for Hydrofluoric acid (HF). Creation and coordinating of this plan, that allows for the importing of HF into Canada, can be a daunting task. Solstice has a registered ERAP for HF acid and has made it available for our customers. You can rely on our expertise to safely remediate should an incident occur.

# Safer, Quicker Response to Incidents

From creation to consumption, Solstice is committed to the safe production, transportation and unloading of HF acid. To ensure proper response to an emergency, we have strategically placed equipment across Canada and trained contract personnel in all aspects of incident management for HF acid.

- Critical task consultation and execution.
- Site evaluation and recommendations.
- Contractor and personnel training.
- On scene response.

## Proven Preparation and Safety

From protecting your people and equipment to getting you up and running again as swiftly as possible, Solstice's HF safety training and expertise is thorough and effective.

**HF general awareness training**

**HF trailer/ railcar capping kit training**

**Medical treatment for HF exposure training**

**Solstice Experts will be Onsite Throughout the Process to Facilitate**

## Emergency Response Network

Solstice has partnered with a reliable emergency contract group that provides professional emergency response across Canada. We have positioned specialized equipment in these locations for quick access in case of an incident.

### Truck Transportation of HF Acid

Solstice employed drivers are trained to support emergency responders.

### Railcar Transportation

We have a large, well maintained fleet of railcars. We continue to invest in new equipment that is built to the latest standards.

## Count on Solstice for ERAP Services

Don't settle for less than proven Solstice expertise.
