### Product Numbers & Ordering Information

	Product Numbers	Details
	1007046	<b>Evac body splint portable stretcher.</b> Evac body splint emergency rescue stretcher becomes rigid when wrapped around the casualty. Can be listed horizontally or vertically. Rolls up for easy storage.
	STO4005A	<b>Dakota Basket Stretcher</b> Basket stretcher has welded framework made from galvanized steel and anti-rot wooden surface. It is versatile and ideal for winching applications.

#### Additional Information

Both units are designed for one person rescue only. The Evac body splint bed is made out of polypropylene, making it flexible, when laid flat, but becomes rigid when wrapped around the casualty. The Basket stretcher is made from stainless steel tubing.

### Overview

#### Key Features

Rescue Stretchers provide safe casualty transfer in a variety of different terrain and applications. They are designed to keep the patient immobile and assist rescuers in retrieval. The Evac Body Splint was designed for confined space rescue. The basket stretcher is perfect for quick and safe patient transport over rough terrain and can be used for either horizontal or vertical lifting.
