Overview

Key Features

Lightweight silicone construction and an impressive variety of features make the Honeywell 2000 series one of the industry's most comfortable, user friendly half mask air purifying respirators. It has a large, pliable sealing area, providing excellent wearer fit. Oversized inhalation ports provide lower breathing resistance, enhancing wearer comfort. An angled, self adjusting nose bridge fits a variety of nose shapes and sizes comfortably and accommodates safety or prescription eyewear. An improved yoke design gives a snug, secure fit, and reduces facepiece slippage, yet permits easy donning and doffing. A computer-designed facepiece allows optimal speech communication without the aid of a speaking diaphragm. The Honeywell 2000 is the ideal air purifying respirator for people that use masks on a regular basis.

Recommended Industries/Use

- Agriculture
- Chemical
- Construction
- Fire Protection
- Food Services
- Forestry
- Manufacturing
- Mining
- Municipal Services
- Oil and Gas
- Steel and Metals
- Utilities
- Welding

Hazards

- Airborne Particulates
- Chemical
- Contamination
- Gas, Vapors, Smoke

Regulations

- Certified to AS/NZS 1716:2012 License No:0952

Historical Brand

Survivair

Specifications

Materials

- Silicone
